WILMINGTON, MASS. - WEDNESDAY, JULY 30, 1958

PRICE 10c

### SCHOOLING IN-THE-ROUND

Plans for a nearly round, 12 room elementary school for the Glen Road district were unveiled Monday evening by the permanent building committee.

The structure consists of a core containing cafeteria (combination cafeteria and auditorium) and lavatories, circled by a corridor with two exits, and twelve classrooms.

The rooms measure 18' at the side nearest the center of the building, and 32' at the perimeter, and are 36' deep.

Outside glass walls will be of solar glass, blue-tinted. Main entrance area will hold teacher, conference, nurses rooms, offices, etc.

A similar school was constructed in Newbury two years ago.

Cost of the building will be within the \$400,000 set at a town meeting. Plans for an orthodox building were also submitted by the architect, but the cost was estimated at about \$427,000.

Following is a release from the building committee:

In accordance with the assignment to construct a 12 room elementary school, not to exceed \$400,000 in cost, the Permanent Town Building Committee submits the following report.

After careful consideration of the many factors involved, the committee determined to build the best possible school for the money provided rather than cheaper construction.

ventional school designs. The design finally selected provides all the features required by the school department within the \$400,000 budget. The committee considered that a fresh approach was required to build schools at the rate indicated as being necessary by the superintendent of schools and the planning board to accommodate Wilmington's future growth.

The school is circular in appearance and will afford more space per classroom than minimum state requirements. It is anticipated that the final cost of the school will be approximately \$300,000 per classroom.

In order to stay within the budget established by the town, and at the same time obtain a school building providing for all of the necessities of the town's education program, it was necessary to develop plans which provided a maximum utilization of functional space. Studies by the architect

demonstrated that great economies could be obtained by departing from present school designs. Reductions in size of such costly items as corridors, roof areas, and outside walls have been made by means of the design which has been approved by the committee. At the same time the class room areas are greater than in a rectangular type school costing many thousands of dollars more.

The circular type building to be constructed, although new to Wilmington, has been constructed elsewhere, both in Massachusetts and throughout the nation. One such school was viewed by the committee and in our opinion was functional in design and pleasing in appearance.

It is expected that a savings of approximately 20% per school will be realized by using this design which when multiplied by the number of schools needed will result in substantial savings accruing to the taxpayer.

### ROOKIE OF THE YEAR

Gathering surprising momentum as the weeks roll by, the Democratic candidacy of William H. Sullivan, Lowell Lawyer, for the U. S. House of Representatives from the 5th District has the Republican hierarchy in a definite dither as to what to expect in November.

This situation represents a startling about-face from the GOP placidity that has characterized campaigns of the past in which the title-holder, with only ordinary opposition, prepetuated the position in the Republican ranks and seemed destined, like Tennyson's brook, to go on forever.

But the entrance of Attorney

### Stolen Cars Recovered

On July 27, two stolen cars were recovered in Wilmington, one of them having been severely damaged.

At 9:30 a.m. Officer Morley, patrolling Chestnut St., discovered the vehicle owned by Russell Hopkinson of Belrose Ave., Lowell. Mr. Hopkinson's car had been stolen from his driveway the night before. There was no apparent damage inflicted.

At 9:40 a.m. Officer Cuoco discovered a second stolen vehicle on Hopkins St. The second car, spotted near the airport was the property of John O'Connell of State St., Tewksbury and had been stolen from his yard the previous evening.

Officer Cuoco reported that Mr. O'Connell's vehicle had been severely damaged by the thieves. Doors and windows were broken, fenders dented and the interior practically demolished.

Police of Wilmington, Tewksbury and Lowell are investigating.

### Train Stopped At Nichols St. Bridge

Offenders at the Nichols St. Bridge are still at it. Officer Ellis worth sped to the scene at 7:20 p.m. on July 27 after receiving a complaint from officials of the B. and M. Railroad that a train had been stopped in that area.

Investigation as before failed to turn up the "chuggers".

### Fined For Assault On A Police Officer

At Woburn Court on July 28, George D. Hovey, 17 of 202 Andover St., Billerica, was fined \$25.00 for assaulting a police officer.

On Saturday evening, Hovey was asked by Officer Kozlowsky to leave the carnival grounds following a disturbance. When Hovey refused to leave, the officer insisted and was set upon by the youth.

### Selectswoman Sees Sister After 46 Years

Mrs. Wavie Drew, member of Wilmington's board of selectmen is currently enjoying a visit from her sister, Mrs. Charles Acres of Carberry, Manitoba.

Mrs. Drew and Mrs. Acres, who arrived Monday, had not seen each other since the year Mrs. Drew was married, 46 years ago.

### Application Mailed For Project For Elderly

The Wilmington Bureau of Old Age Assistance mailed 87 applications to their recipients on July 25, 1958.

These applications are for the Wilmington Project now under construction on Route 62 on Burlington Avenue.

### Truck Strikes Cleaner Shop

A truck owned by the Tunney Furniture Co., Main St., and operated by Thomas Adams of Chester Circle, Tewksbury, slipped its brakes, according to the driver, after it was left parked in front of the furniture store, at 3:30 Tuesday afternoon. The truck struck a telephone pole, pulling the wires from Tunney's building, and continued back into the Merrimack Cleaners shop. A large plate glass window was broken.

Paul McCabe, owner, said that a clerk customarily at work there, was sent to work at the rear of the shop. No injuries resulted.

### Hagerty Claims Board of Health Wasteful

Request from the Board of Health for an additional \$3000 for dumping privileges was met with an outburst against the tactics which led up to the need for the money by Chairman of the Board of Selectmen Frank Hagerty.

Stating that the health agency should "stop throwing the town's money away", Mr. Hagerty said the Board of Health could have saved the town that amount each year by signing a 5 year contract with the present dump operator. He said a 5 year contract could have been signed for \$8500 or \$7000 a year, instead of the present \$10,000 for each year.

Wilmington's present dump is located off MacDonald Rd. and is owned by the Canales family.

The Board of Health has advocated a sanitary land fill operation. The operation was to be conducted at the lower end of Main St. on the land of Clarence Spinasola until required \$30,000 bond was not met. The town would have been able to use the dump for \$4000 a year.

The 1958 budget allows \$7000 for dump operation; \$8000 was requested by former Town Joseph Courtney, but was cut by the finance committee. \$5000 was spent for a six month contract with the present operator, and the additional \$3000 is needed for the additional six month contract required.

### Charles Knapp Succumbs At 60

Charles Bruce Knapp, 60, passed away at his residence, Allston Rd., on Saturday, July 26 following a long illness. He had been a resident of Wilmington for the past 10 years and was employed as a salesman prior to his illness.

Surviving him are his wife, Camille (Rachelle) Knapp also of Wilmington and a daughter, Mrs. Patricia Brooks of Stoughton. He is also survived by two grandchildren.

Funeral services were held at Penn's Creek, Pennsylvania on Tuesday, July 29 at 3:30 p.m. Burial was in the family lot at Lutheran Reformed Cemetery, Penns Creek.

Funeral arrangements were under the direction of the W. S. Cavanaugh and Son Funeral Home, Main St., Wilmington.

J-23-Z

### HIGHWAY DEPARTMENT CRITICIZED

A number of items, allegedly reported to the highway department and not attended to, were brought to the attention of the Board of Selectmen and the Town Manager Monday evening.

Even as the meeting took place, an accident occurred on Ballardvale St., apparently due to a culvert which was not filled in, the condition of which reportedly had been brought to the attention of the town manager and the highway superintendent previously.

Phillip Parks of Ballardvale St., appeared at the meeting to report an accident in which the daughter of a neighbor had driven her car into the culvert, which was so deep that a tow truck was needed to free the vehicle. Mr. Parks said that he had reported the condition to various authorities, a fact substantiated by Selectman Donald Kidder and Chairman Frank Hagerty.

Mr. Kidder said that he himself had reported the condition to Town Manager Calabrese. Mr. Calabrese denied Mr. Kidder's statement, at which time Mr. Kidder clarified the remark to say that he had given the complaint to the town's secretary. Mr. Calabrese said that he had not personally received that complaint, but that he had forwarded other complaints on the same subject to the highway department.

Mr. Parks said that he called the highway superintendent after

the accident and that the superintendent said he thought that the culvert had been filled in. Mr. Parks claimed that the department head did not come all the way up Ballardvale St. in the course of his inspections.

Mr. Kidder said that he felt the town should inspect all streets at regular intervals and further, "I think it's time the town should take care of these small emergencies."

Chairman Hagerty moved, during the meeting, that the town manager see that the brush was cut along the highways. He said he made a motion, rather than a request, to see that it was attended to as he felt that brush cutting was an important part of town duties. He said that he believed Wilmington is the only town in the county that does so little about brush by the roadways. He also claimed it costs the town three times as much by letting it go so long. Chemical spraying, used in other towns, was also suggested as a possible remedy to the problem.

The guard rail on Nichols St., mentioned previously by Mr. Hagerty a number of times, and reported to the board originally by members of the Shawheen Improvement Association, was inquired about again by Mr. Hagerty. Mr. Calabrese again promised to see that it was repaired.

### Pole Damaged By Hit And Run

On July 25, a report came to police at 7:40 p.m. from residents of Butters Row that someone had struck and damaged a telephone pole but had left the scene, causing the incident to be labeled a "hit and run."

Police stated that the pole had been hit with sufficient force to sever and break the wires, causing lights in the area to go out.

Officers Markey and Mercier are working on the case having determined already via wheel marks that the damage was inflicted by a truck.

### Street Application Deadline Sept. 1

The Board of Selectmen reminded the public that applications for streets to be constructed under the betterment act must be in the hands of the Board by Sept. 1.

### Silver Lake Betterment Meeting

On August 4, at 8:30 p.m. the Silver Lake Betterment Assoc. will hold its annual election of officers, at their monthly meeting. All residents of the area are invited to belong. Please make an effort to attend this meeting. Dues are now payable.

### Ed Curtis Asks Gravel Permit

Edward J. Curtis of Andover St., and his attorney, Alvin Altman, met with the selectmen Monday evening to discuss Mr. Curtis' application for a gravel license.

Mr. Curtis formerly has a license for a gravel pit on his property and sought to renew the permit. Whether the proposed operation is the same as before, an extension or a new pit, will be decided by the selectmen when they view the location.

Another section of Mr. Curtis' land is being taken by the state for the construction of Rt. 128. Chairman Frank Hagerty said a license for this parcel could be granted as it was allowable under the gravel regulations, but aforementioned parcel would be taken under advisement and a ruling would not be handed down until the property was viewed.

### Larceny Of Utility Trailer

On July 26, at 2:30 p.m. Mr. LaTerra of Daydawn Drive reported to police that sometime during the previous night, a grey, factory-made utility trailer had been stolen from his property. Officer Mercier is investigating the incident.

### WHITER

Because They're Cleaner

Your clothes look as white as new fallen snow... because they're Sunshinewashed! Sunshinewashing process gives your white pieces that crisp whiteness that fairly shouts cleanliness. And Sunshinewashing gives you this cleanliness while treating your laundry with gentleness. You can be sure if you wash with Sunshine!

Same day service at the Launderette 157 Andover St. Call GL 8-6561 or GL 3-4170 Merrimack Sunshine Laundry 95 BRIDGE STREET LOWELL, MASS.

### LEONARD A. DESIMONE GOING TO COLLEGE

Middlebury, Vt. - Leonard A. Desimone, teacher at the N. Reading St. Sanatorium School in North Wilmington, is attending the Middlebury College Bread Loaf School of English.

Conducted on the mountain campus, of Middlebury College, the English School offers graduate level courses. Robert Frost, America's noted poet, appears there as a visiting lecturer, as he has nearly every year since the opening of the school in 1920.

Following six weeks of classes in language, literature, drama and writing, commencement exercises will be held on Aug. 9 for those who are completing requirements for advanced degrees.

### Larceny Of Pup Tent

Mrs. Wybert of Brand Ave., reported to police on July 22, that during the previous night, a green pup tent had been taken from her yard. A blanket was also missing. The approximate value of the loss was set at \$30.

Sgt. Imbimbo is investigating the incident.

### Gas Siphoned

Mrs. Barnes of Glen Rd., complained to police on July 22 that gas had been siphoned from her car while it was parked near her home.

Officer Fuller is investigating the complaint.

### ATTY. WILLIAM H. SULLIVAN

Sullivan into the contest has changed this sedate attitude completely. He has injected youth and vigor into the campaign and his success in winning enthusiasts throughout the district has been little short of phenomenal. While he modestly confesses to no miraculous panaceas for curing the accumulated ills of this great Congressional district Attorney Sullivan does carry a portfolio of new and constructive ideas aimed at stabilizing the economic picture and aiding the general welfare of the constituency.

Not a product of machine politics Attorney Sullivan can afford to be independent in thought and action. He is essentially interested in people regardless of their politics and his fundamental honesty in this respect is reflected in the promises of support he has been receiving from voters of both parties.

It has often been said that wholesome youth has a way of capturing popular imagination. At 29 Attorney Sullivan seems to be doing just that in the 5th Congressional district. He could become, conceivably, the Rookie of the Year in the major political league - no mean compliment in this complicated and competitive era.

For the first time in this century, America is growing wood faster than it is being removed by harvest and killed by fire, insects and disease.

## TOTS and TEENS

Lucky is the mother who has a spring baby. My first-born arrived in April, and by early June we were spending many pleasant, healthy hours in the sun.

With careful control it is beneficial for infants to soak up sunshine right from the beginning. The vitamin D-producing ultraviolet rays of the sun are especially important for healthy development, particularly of the bones.

My son, Bud, had his first sunbath as soon as he weighed 10 pounds. To protect his delicate skin, my pediatrician suggested starting with one minute on each side, and working up to 15 minutes on each side mid-summer. His only other instructions were never to expose Bud's eyes to the direct rays of the sun, to adhere strictly to the time schedule, and to apply Vaseline petroleum jelly immediately after the sunbath. I noticed any reddening areas on the skin.

Bud's second season in the sun created new problems because he was toddling, and it was practically impossible to keep him in the shade. So, except for the times that we were allowing the sunbath timing

Keep Him Covered

schedule, I kept him well covered with a broad-brimmed hat and long-sleeved loose clothing. We spent many days at the beach, and by the middle of July he was a picture of suntanned health.

## TELL ME....

DOES THE NEEDLE OF THE COMPASS POINT TO THE NORTH POLE?

NO! IT POINTS TO THE MAGNETIC POLE WHICH IS 1500 MILES WEST OF THE ACTUAL NORTH POLE!

WHY WERE OWLS DEPICTED ON COINS DURING ANCIENT TIMES?

AS A HINT, SUGGESTING WISDOM IN SPENDING THEM!

## Dog Day Coolers

During the week when you're work-bound and the heat and humidity team up to make you utterly miserable, do you yearn for seashore or lake? Wouldn't it be nice to dangle your feet in cool water or take an icy plunge? Well, here are some cooling, at-home cures for when the dog days hit. Your bath can pinch hit for the lake or ocean if you take the proper approach. Make it a tepid tub. A warm-to-hot one is apt to lull you to sleep, and a cold one makes you doubly conscious of the contrast between bath water and hot air when you step out of the tub. Add a half pound of baking soda to the water. Because of soda's alkaline properties it gives your bath a healthful spa-like quality that soothes the rip-roaring sunburn and such common Summer complaints as poison

ivy, oak and sumac, prickly heat and hives. You'll be getting the advantage of soda's gentle detergent action... you'll come clean without moving a muscle. This is a distinct benefit, even if you haven't a single complaint, for during the Summer, skin is apt to be dry and flaky from outdoor living, and conventional cleaning methods tend to dry it further.

A short-cut-cooler and a refreshing substitute for a wide if you don't have a half-hour or so to spend in the tub is a foot bath. Set up a basin of cool water to which you add three tablespoons of baking soda in a shady nook in the garden or the airiest room in the house, read the papers, soak your feet and relax for ten minutes. You'll be surprised at how fast you're rid of the hot weather doldrums.

WHAT WOULD HAPPEN IF THE SUN SHOULD APPROACH US TO WITHIN THE DISTANCE OF THE MOON? (240,000 MILES)

OCEANS WOULD QUICKLY TURN TO STEAM AND THE EARTH WOULD MELT!

DO ANY TREES GROW COMPLETELY UNDERGROUND?

YES! THE MYSTERY TREE OF PATAGONIA..... GROWS ENTIRELY UNDERGROUND!

## Record Ship Replacement Program

As is generally known, leading American steamship lines are, and long have been, provided with differential subsidies by the Government. This simply recognizes the fact that it costs much more to build, maintain and operate merchant ships in this country than in the other maritime nations with which we compete for cargo.

The subsidies are given under very strict terms. For example, the ships must regularly ply trade routes considered essential by the Government. They must be manned with American crews. And the lines are required to replace a ship after 20 years.

This means, according to a Wall Street Journal article, that "the nation's leading steamship lines are launching the biggest search for ship financing in their history." Specifically, the lines will have to build more than 300 new vessels in the next 10 to 12 years - the largest peacetime replacement program in our history. And the cost to the lines, over and above Government contributions, will be more than a billion dollars at the minimum. Some shipping men think the actual figure may run as high as two billion.

Thus the differential subsidies don't just automatically solve the lines' economic problems. The national security and welfare demands that we have a big, modern U. S. - flag Merchant Marine. And the steamship lines have to be on their toes to see that the demand is met.

RED, WHITE, AND BLUE. AND YOU. Yes, you're likely to be "going steady" from now on for this patriotic color scheme is a prime favorite for all the fun clothes of Summer. In a season that accents the Nautical sprightly combinations of red, white, and blue are seen everywhere. In the ever-popular Cotton Knits they have the happy faculty of looking just right, whether you're on KP duty at home or dangling your legs over the side of a sloop on the local lake. Among many alluring costumes you might elect one that's made up of equal parts WHITE DUCK PANTS and cotton knit STRIPED PULLOVER. Or make yours a SHORTS STORY in dramatic BLAZER STRIPES.

Neither Husband Or Wife Can Collect For Loss Of Others' Society 3d Party

(A Service of the Massachusetts Bar Association)

Neither the husband nor the wife has a right in the Commonwealth of Massachusetts to recover for the loss of the other's society caused by the negligence of a third party.

A wife is entitled to maintain an action for personal injuries caused by the negligence of another and to receive full compensation for her personal injuries. Her husband's damages in such cases are limited to the expenses he has been put to in the care of the wife. These damages commonly consist of the reasonable medical expenses, such as moneys he has spent for doctors, hospitals and nurses. A husband likewise receives full compensation for all his personal injuries, and the wife cannot recover for the loss of his society.

However, when a third party alienates the affections of a husband or wife under circumstances entitling the aggrieved mate to damages, there is included the fair value of the spouse's society of which the wronged spouse has been deprived. The action for alienation of affections differs from the action

for personal injuries; otherwise, one who had alienated the affections of a husband or wife would

## The Right of Free Choice

The National Conference on Labor Health Services recently met in Washington, D. C. A series of speakers strongly criticized the medical profession, as represented by the American Medical Association.

Back of this lies a long-standing controversy which may be complicated in some of its details but is simple in principle. Certain unions, through their health and welfare funds, are "merchandising" medical care. The principal fund, that of the United Mine Workers, covers 250,000 workers and their families and owns and operates 10 hospitals staffed with salaried doctors. The unions, with their control of the type of services rendered, who will render them, and the amount paid for those services.

The crux of the problem is that the beneficiary is denied a basic right - that is, the right to choose his own physician, and, if he so wishes, to change that physician when he feels that another can give him better care. He must accept the physician selected by the fund. Often he must travel considerable distances to obtain the

services of Fund-approved doctors, and that in itself is a deterrent to good medical care. And the monopolistic controls exerted by the Fund discourage well-qualified doctors from entering or remaining in practice in the areas concerned.

The medical profession's position on this matter is one of the basic principals. It insists on the right of the patient to choose his own doctor. And this right, it has been accurately pointed out, has been almost as much a part of our traditional freedoms as the right to choose one's own religion, or to speak or vote as one pleases.

## Help For Premature Infants

The science of dietetics, like many other sciences, has made great strides in a comparatively short period of time. A vast literature of new knowledge and information has been gained.

The attitude toward meat in the diet has undergone particularly significant change. It used to be believed, for instance, that meat was not needed by the elderly, and might actually prove harmful to them. Now the dietitians know that meat - with its high protein content and other values - is essential to the mental and physical well-being of practically all people of all ages. And meat - properly prepared, in proper quantity and of the proper kind - has proven to be of outstanding value in promoting recovery from many illnesses.

A fresh testimonial to meat's worth dealing with specific health problems appears in the June edition of the Journal of Diseases of Children, an American Medical Association publication. Written by two doctors, its point is that anemia and iron deficiencies in premature infants can be partially overcome with the early addition of meat to their diet. This dietary supplement, given within two to four weeks after birth, has particular value in increasing red cell volume and circulating hemoglobin mass and building iron reserves. The study is based on a year-long test, and the authors say that "strained meats were well tolerated by all infants, and frequent gastric distress associated with the administration of medicinal iron was avoided."

The right diet is one of the most potent of medicines.

## Medicine—American Style

In the Soviet Union medicine is socialized, as is everything else of any consequence. Recent information indicates that the Russians have been making significant progress in increasing the life span, and in certain other health fields. However, we would be making a grave mistake if we assumed that the progress is due to socialization. Speaking editorially, the New York Times observes: "The sharp decline in mortality show is in part the result of the relatively youthful composition of the population as compared with earlier periods. Soviet medical care, of course, is not 'free,' but simply paid for through tax revenues. Moreover, Soviet sources acknowledge that many of their citizens prefer to consult their doctors privately aware that those doctors will spend more time with and be more thorough in working with a patient who is paying a fee than can be in the ten minutes allocated each patient visiting a state clinic. The Soviet medical system has improved during the past forty years, but we may

## MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of the Power of Sale contained in certain mortgage given by William J. Hale and Evelyn Taylor to the Falloway Co-operative Bank, dated June 27, 1957 and recorded in Middlesex North District Registry of Deeds, Book 1374, Page 526, for breach of the conditions of said mortgage and for the purpose of foreclosing the same, will be sold at public auction at ten o'clock A.M. on Tuesday, August 26, 1958, at 13 Jere Road, Wilmington, County of Middlesex, all and singular the premises described in said mortgage, to-wit:

A certain piece or parcel of land in Wilmington, Massachusetts, being shown as Lot 54 on a plan entitled "Atkins Grove Park, Wilmington, Massachusetts, owned by John D. Cooke, Jr. Kingman Abbott, Surveyor, dated April 1952, recorded with Middlesex North District Registry of Deeds in Book of Plans 81, Plan 186, and being further bounded and described as follows:

NORTHWESTERLY by Jere Road, 104.13 feet;  
SOUTHWESTERLY by Lot 53 as shown on said Plan, 125.71 feet;  
SOUTHEASTERLY by Lots 59 and 60 as shown on said Plan, 104.45 feet;  
NORTHEASTERLY by Lot 55 as shown on said Plan, 117.55 feet.

The whole containing 12,665 square feet of land more or less. Being the same premises, conveyed to William J. Hale and Evelyn Taylor by deed from Associated Finance & Realty Corporation of even date to be recorded herewith.

Said premises will be sold subject to unpaid taxes, municipal assessments and liens, if any there be.

**TERMS OF SALE:**  
One Thousand Dollars (\$1000.00) to be paid in cash by the purchaser at time and place of sale, and the balance in or within ninety days thereafter. Other terms to be announced at sale.

## COMMONWEALTH OF MASSACHUSETTS

**Land Court**  
No. 27521 Misc. In Equity.  
(SEAL)  
To Isabella Saba, now or formerly of Danvers, Syria or his or her heirs, devisees, or legal representatives:

Greeting: Whereas a suit in equity has been begun against you in our Land Court, by Burton A. Froton and Mary H. Froton of Wilmington, in the County of Middlesex, and said Commonwealth,

WE COMMAND YOU, if you intend to make any defense, that on the first Monday of October next, which Monday is the return day of this subpoena, or within such further time as the law allows, you do cause your written appearance to be entered and your written answer or other lawful pleading to be filed in the office of the recorder of said court at Boston in the County of Suffolk, and further that you defend against said suit according to law. If you intend to make any defense, and that you do receive what the court shall order, adjudge and decree therein.

Hereof fail not, at your peril, as otherwise said suit may be adjudged, and orders and decrees entered therein, in your absence.

The plaintiff alleges to be the owner of certain land located on Middlesex Avenue in said Wilmington; and in the Chain of Title affecting said property there appears a mortgage running from Mervin W. Lantz et al to Isabella Saba, dated October 7, 1946, and recorded with Middlesex North District Registry of Deeds in Book 1055, Page 215 to secure a note in the sum of fifteen hundred dollars (\$1500.00); that said mortgage has been paid in full, but has not been discharged of record and praying that the Court find that said mortgage is no longer in force and effect.

And it appearing to the Court upon the suggestion of the plaintiff that the whereabouts of the defendant is unknown, and he or she cannot actually be served with process, it is ORDERED that notice be given by publishing a copy of this order once each week for three successive weeks in the Wilmington Crusader, a newspaper published in said Wilmington, the last publication to be one month at least before the said first Monday of October.

Witness, JOHN E. FENTON, Judge of our Land Court, the twenty-fourth day of July in the year of our Lord one thousand nine hundred and fifty-eight.  
Sybil H. Holmes  
Recorder.  
J-30 A-6-13

## Ice Cream Quickie

A TRAY OF ICE CREAM in the refrigerator means cool assurance arrive. Serve it for dessert, on cup cakes or as a topping on cake or sponge shortcakes. This creamy, easily made, chocolate ice cream calls for sweetened condensed milk, needs only one beating while freezing and is always delicious.

**MAGIC ICE CREAM**  
3/4 cup (1/2 can) sweetened condensed milk  
1 square (1 oz.) unsweetened chocolate  
1/2 cup water  
1/2 teaspoon vanilla extract  
1 cup heavy cream  
Set refrigerator control at coldest point. Put sweetened condensed milk and chocolate in top of double boiler. Cook over rapidly boiling water, stirring often, until thick (about 10 minutes). Slowly add water, mixing well. Chill. Stir in vanilla. Whip cream to custard-like consistency. Fold into chilled milk mixture. Pour into freezing tray. Cover tray with waxed paper. Freeze to a firm mush (about 1 hour). Turn into chilled bowl. Break up with fork. Beat with rotary beater until fluffy but not melted. Return to tray, cover with waxed paper. Return to freezing unit. Freeze until firm.

doubt that it comes anywhere near the standard to which our people have become accustomed."

The Times' point applies to the other countries in which socialized medicine prevails, England included. In every case, doctors are overworked and are unable to give the proper amount of attention to those in real need. Time and opportunity for experiment in the all-important field of preventive medicine have been sadly reduced. And the cost to the state, which means the taxpayers—is enormous.

"Free medicine." American style, through voluntary health insurance programs, has been of greater service to more people than any authoritarian system ever devised.

The parking problem has spawned a multibillion-dollar business, says Newsweek. Last year alone, investors spent \$4,750,000, 600 on parking garages of various kinds.

## For Value Received

The new postal rates which will shortly go into effect mark an effort to do something constructive about the huge taxpayer subsidies that have been given the postal service—and to have the users of mail come nearer to paying for what they get. This is especially true in the rate increases scheduled for third-class matter.

But the new post office bill, as approved unanimously by Congress and signed by the President, does not do anything about fourth class mail, which is parcel post. And it is here that further reforms are needed.

Parcel post is and almost always has been a producer of deficits. That is simply a way of saying that the people who don't use parcel post must pay a part of the cost of providing service for the people who do. And it can't be argued that parcel post contributes to public knowledge and enlightenment, as do other mail categories. Parcel post is a 100 percent commercial service. It competes directly with taxpaying private package carriers, both national and local. It didn't exist until 1913.

## Man With A Mission

Despite the importance of the major contests on the state and national tickets this year, the spotlight has already been definitely turned on the populous 5th Congressional District where William H. Sullivan, likeable Lowell attorney, is causing considerable commotion by his determined bid to place this district in the Democratic column for the first time in the history of modern men or women.

Stressing one of the nation's greatest commodities, Attorney Sullivan is putting the accent on youth and invulnerability in a jet propelled area where physical stamina and endurance as well as mental agility and alertness are prime requisites for survival of the fittest.

With mature wisdom and sagacity, bolstered by an intelligent appraisal of these changing times, this 29-year old candidate has no delusions of grandeur in his quest for political honors. Rather, he is a young man with a mission, a dedicated individual who feels in his heart that his jury is with him as he attempts to convince the skeptics that the 5th Congressional District is not the exclusive and sacrosanct territory that the GOP incumbent inherited more than 3 decades ago.

Man With A Mission cont. xxx  
Judging by the reeking excitement his candidacy has created, Attorney Sullivan has caught the fancy of the electorate by his modesty and sincerity, and a rugged constitution for enduring the hostile and hostile of official Washington. The great influx of independent voters into the district and a truly spectacular increase in Democratic registration give every indication of swinging the pendulum in his favor. Here come November - is a golden opportunity for the Democrats of Washington to take in this session or any session which promise so much good for the expenditure of so little effort.

## Johns-Manville Earnings Increase

Johns-Manville earnings showed an increase during the second quarter of this year over earnings for the same period in 1957, despite slightly lower sales, according to V. B. Padham, local publicity director. This improvement "reflects the results of our company-wide efforts to reduce the cost of doing business," Mr. Padham said. "If business conditions continue on the present improved level, we are all hopeful the higher rate of earnings can be sustained," he said.

Sales in the second quarter of 1958 were \$79,104,000, compared with \$82,417,000 in the second quarter of 1957. Earnings for the second quarter of 1958 were \$6,111,000, or 7.7 cents of each sales dollar. In the second quarter last year earnings were \$5,660,000, or 6.7 cents of each sales dollar. Second quarter earnings per share of common stock were 85 cents, compared with 79 cents last year.

For the year to date, Johns-Manville sales were \$138,271,000 and earnings were \$8,011,000, or \$1.12 per share, compared with sales of \$148,972,000 and earnings of \$8,614,000 or \$1.20 per share for the first six months of 1957, Mr. Padham said.

Belts, motors, and wiring must be properly installed and be in proper working condition before operating a hay drier. Remember any overheating sufficient to cause even a small fire could be disastrous.

Ductile Iron Gears  
Increasing amounts of ductile iron are being used for heavy gears because of this material's high strength, good wear-resistance and excellent machinability.

It would be wonderful if school children at home on vacation could be used to help clean up the rubbish in attics, sheds or cellars.

## A Bad Bargain

A tax which adds to the forces of inflation, which is a burden on agriculture and business, and which produces little if any revenue for the government, is obviously a bad bargain. That is the case with the World War II excise taxes on transportation, which are still on the books all these years later.

The taxes amount to three percent on freight shipments in general, four cents a ton on coal, and ten percent on passenger fares. In large part they are paid by businesses and so are deductible from income tax.

Senator Smathers, who headed the committee which made an exhaustive investigation of the critical financial situation of the railroads, is a leader in the repeal movement. To his mind, abandonment of these excises would result in only an insignificant drop in tax revenue, and perhaps even a gain. Prices to consumers would be lowered in two ways—directly, by cutting the cost of train and plane tickets, and indirectly in the cost of the goods and services on which taxes are now levied. On top of that, he says, it would improve the competitive position of small business. In many cases, large business can avoid the tax by moving goods by private transportation. The small business cannot.

Senator Smathers emphasized that excise tax repeal would help all the carriers—the railroads, the trucks, and the airlines. It would lead to increased capital investment by all—and the health of the whole economy would be bettered. To use his own words: "It appears to me that there are few steps we can take in this session or any session which promise so much good for the expenditure of so little effort."

## New England Electric Gains In Income

New England Electric System reports consolidated net income for the first five months of \$7,547,900 a gain of \$907,800 over the comparable period of 1957.

Per share earnings for the 1958 period were 63 cents on 11,816,302 average shares outstanding compared to 61 cents last year on 10,854,683 shares outstanding.

In a letter accompanying quarterly dividend checks of 25 cents a share, President Irwin L. Moore told shareholders that residential electric revenues for the first five months were nearly seven percent ahead of last year. Commercial revenues increased six percent, while industrial revenues were up two percent. Gas revenues were up 12 percent.

Mr. Moore said that as a result of heavy winter snowfall and good spring rains hydro-electric production for the first five months was 132 million kilowatt-hours higher than last year, enabling the system to reduce steam generation and fuel expense. He reported water stored in reservoirs is well above levels of a year ago and that this should be of considerable benefit in the weeks ahead.

On July 21, 1930, Marine Capt. Arthur Page made the longest recorded blind flight up to that time, from Omaha, Neb., to Ancon, D. C., a distance of 1,000 miles. He received the Distinguished Flying Cross posthumously for the flight having been killed in the Thompson Trophy Race only a few weeks later.

On July 27, 1953, the last US carrier strike of the Korean action was flown. Planes from Task Force 77, operating with UN Forces, pounded enemy supply routes, rolling stock, airfields and road systems before returning to their ships.

Edison Storage Battery  
In 1901, Thomas A. Edison developed and patented the nickel-iron alkaline storage battery. Because of its excellent characteristics, this type of battery is still used today in such equipment as trains, ships, railroad signals and radio installations.

The honor of being the first and only Marine officer actually to command a navy vessel in battle goes to Lt. John Gamble, who commanded the Greenwheel during the victorious engagement with the British Seringapatam on July 14, 1813.

## Nickel's Role In Television

Nickel and high nickel alloys play an important role in the television industry—in studio equipment and home receivers as components of cathode ray and vacuum tubes and for glass-to-metal seals.

Bedford, Indiana, Daily Times-Mail: "No person ever got as far in the world without helping himself. . . . That is just as true of nations. What Latin-America needs is some hard-headed talk about living within its income - the same kind of stuff you get from your banker when you have overdrawn your account for the third time."

Farmington, Maine, The Franklin Journal: "It could happen to you. . . . It has happened to so many others. . . . Paralytic polio kills, cripples, wrecks lives and families, sometimes even kills and always costs a lot of money. Your chances of getting paralytic polio may not be great but why take even a small chance when protection is so sure and so easy?"

Antigo, Wisconsin, Daily Journal: "This is the time of the year when game managers renew their pleas of 'Leave the young of wildlife alone, regardless of whether it is deer, bear or birds.' Wildlife does not desert its young and there is no need for a human search for deserted babies. Interfering with the young of wildlife is both anti-conservation and illegal."

Conway, South Carolina, Horry Herald: "The challenge to religion and the role of the church are no different today from what they were in the past. While there are various creeds, philosophies and faiths, they seek essentially to bring about a communion between man and Supreme Being. Differences in the manner of operating the various churches do not involve the substance of religious beliefs."

## Victory For Horse Sense

A short time ago a House subcommittee drove the last nail into a legislative coffin. This happened when the committee voted against the long-debated Federal high dam on the Snake River in Idaho. Even the strongest advocates of socialized power, with a few die-hard exceptions, now admit the project is dead.

This means, for one thing, that the taxpayers of the country will be saved the expenditure of something like half a billion dollars. But it does not mean that the region Hell's Can't would have served will go without needed power. Far from it. A taxpaying utility company, under Federal license, will underwrite with a three-dam project on the river which will produce practically as much power as would the high dam. It won't cost the taxpayers a nickel. And when it goes into operation, it will pay big sums in taxes each year to state, local and the Federal governments.

This was a victory for private enterprise - at a time when such victories were sorely needed if free, representative government is to live and we are to escape the

## Science Alone Cannot Save America

by Judge Clifford O'Sullivan, U.S. District Court, Detroit, Michigan.

Ever since the Russians launched Sputnik I into its orbit, there has been a great cry that we must concentrate now on science.

WHY THIS BIG rush for science? The principal motive for our present crash program is fear—fear lest we lose our position of power in the world, and fear that we may be defeated if war should come.

But can science rid us of these fears? During the past fifty years we have witnessed more scientific progress than in any other period of history; yet with all this success in scientific developments, we stand trembling today for fear of tomorrow. Why? Because the Free World can no longer claim a monopoly on scientific brains, and as long as Godless men exist capable of wielding destructive weapons, that fear will continue to remain with us.

NO ONE is suggesting that we ignore science, for we must try to match the inventions of the other great nations of the world. But the greatest need in America today isn't science. The greatest need is religion.

WE ARE A NATION founded on religious principles by men who believed in Almighty God. Now as Christians and Americans, we either believe that God is both the creator of the world and the source of America's strength, or else we

freedom-destroying blight of socialism. It was also - a victory for plain horse sense. Why should the government undertake any commercial project when private enterprise is ready, able and willing to undertake it, using private savings instead of tax money?

The finale of Hell's Canyon, after years of acrimonious debate, provides an excellent precedent for action on other proposed socialist ventures.

Better than 85% of all articles left on intercity buses by forgetful passengers are returned to their owners, thanks to thoughtful personnel and modern teletype communication between terminals, according to Trailways officials.

Despite tremendous increases in timber demand, no acute timber shortages are likely says the U. S. Forest Service. This favorable condition in the nation's timber resources is due largely to the voluntary American Tree Farm System.

are guilty of undermining the foundations upon which our great nation rests.

There is no room for compromise in these beliefs; either those who believe in God are right or the atheistic leaders of Soviet Russia are right. If we believe the future welfare of our nation depends upon Divine Providence, may we not well pause to wonder whether God may become impatient with our misuse of His divine scheme of the universe which He has given to us?

SUCH IMPATIENCE in God, and His wrath, need not necessarily be evidenced by some supernatural visitation upon mankind, but by allowing man to destroy his own civilization.

Our fear, then, should not be for the Russians; they cannot destroy our immortal souls. Our only fear should be whether we are separating ourselves from the God who has created us.

LET US HOPE and pray for spectacular success by our scientists. But let us not forget that the greatest need in education is the education of the minds and hearts of men so that there may come a time when the right thinking people of the world, people who really believe in God, will have gained such pre-eminence and strength as to be able to forbid the misuse of science by immoral and Godless groups.

Only when that victory has been achieved will there be anything like real peace and security in the world.

papers, and their editors and publishers, have been accused of a good many things not excluding libel, distortion, tactlessness, sensationalism and lack of principle and ethics. But one thing of which they haven't been accused is not being out-spoken. One of our favorite examples of that last trait comes from a paper out in Oklahoma where personal journalism is featured as a virtue and not a crime. Under the masthead the editor says: "If you feel you have been stabbed unduly, come in and we will take it back, unless the stabbing was intentional."

## Heat-Resistant Applications

For Ni-Resist

Ni-Resist corrosion-resisting nickel cast irons have become important in heat-resistant applications involving turbochargers and other diesel engine components. A large use of these alloys continues in castings subjected to corrosive service, and increasing interest is being shown in their use for elevated temperature applications.

## PULL THE PLUG ON STOMACH UPSET

without interrupting sleep or work!

When constipation sours your stomach, you feel lousy, headachy. Taken at bedtime, Black-Draught is "timed" to relieve constipation first thing in morning—without harsh gripping or urgency! This amazing "overnight" laxative helps soothe your stomach too. Then life looks sunny again! Made from pure vegetable herbs, thorough but gentle. Get Black-Draught. \*In Powder or Granulated form... and now in new, easy-to-take Tablets, too.

**CHILDREN** When constipation sours young digestion, get Syrup of Black-Draught. Tastes honey-sweet!

## Shrinks Hemorrhoids Without Surgery

Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astounding ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H. At all drug counters—money back guarantee. \*\$

## A Man-made Miracle

The Salk vaccine is a modern miracle—for those who use it. But for the Salk vaccine, thousands of men, women and children now walking, running, playing and working would be in hospitals and treatment centers trying desperately to regain the use of ruined arms and legs. These people are still sound, whole human beings because they protected themselves against polio paralysis by three shots of vaccine.

Actually, there is nothing miraculous about the miracle of the Salk vaccine. The vaccine introduces into the blood stream tiny doses of polio virus so weakened that it can no longer cause paralysis. But this "killed" virus still has enough pep to produce the antibodies that fight back against the polio virus.

Then, when the polio virus enters the body, the antibodies go to work. The result might be at worst a slight fever or a slight sore throat and, after a day or two, the system is back to normal. The antibodies have won the fight against the deadly little virus.

The miracle of the Salk vaccine is a man-made miracle. It was made by men who delved deeply into nature's mysteries to find out what caused polio, and then used nature's own protective forces to combat the crippling so often caused by the disease in the past. The vaccine merely triggers the body's own defensive mechanism. Once started, these mechanisms can win the fight almost every time.

Take advantage of this modern miracle. Get your polio shots now.

## Vacation Bible School - Baptist Church

The First Baptist Church of Wilmington is happy to announce that it will conduct its third annual Vacation Bible School beginning on Monday, August 11 and running through Friday, August 22. Daily sessions will be fun from 9 a.m. to 12 noon and will be filled with games, contests, singing, Bible, sea and missionary stories, crafts and many surprises.

The theme this year is an exciting one, a nautical theme entitled "Bible Sea Adventures." There will be classes for three age groups: Preschool (ages 3-5); primary (ages 6-8) and junior (ages 9-11). The preschool course is entitled "With Jesus By The Sea"; the primary, "Bible Ship Stories" and the junior, "Anchors Aweigh".

There will be a small registration fee of 25¢ to defray the cost of lesson books and materials. Daily offerings will be used for a missionary project. As in past years, the Bible School is open to all children of the community. No advance registration is required. If transportation is a problem, please phone Pastor, Elliot Castillo, 8-8763, as soon as possible so that arrangements can be made.

## Fire Log

On Monday, July 21, the ambulance was called to transport William Gordon of Cedar St. to Choate Hospital. At 12:15 pm the ambulance took Mrs. Parsons of 51 Boulevard St. to Winchester Hospital. At 12:50 pm engine 4 was dispatched to Federal St., where three roadside brush fires were burning.

On July 22, at 12:15 pm the ambulance was summoned to take Mr. Reid of 40 Swain Rd., to Mass. General. At 7:35 pm engine 4 went to the Esquire Estates on Woburn St., to combat a brush fire.

On July 26 at 9:10 am the ambulance took Walter Ross of 874 Main St. to Choate Hospital. At 3:52 pm the ambulance was summoned again to transport Wil-

## ACHING MUSCLES

Relieve pains of Tired, Sore, Aching Muscles with STANBACK Tablets or Powders. STANBACK's prescription-type formula combines several medically proven ingredients for faster relief of pain. ## Urban Renewal—News Release No. 6

Neighborhood Analysis

There is a common pattern of growth in American towns. The older, central section, because of lack of planning, inadequate regulatory controls and deficient municipal services, have become cores of blight. Surgery must be applied and municipal processes set in motion to re-create soundness out of waste.

Surrounding the central section are areas of transitional housing, multiple occupancy structures, incompatible land uses, and inadequate facilities for decent living. Much of this can be saved, but must be acted upon without delay. Incompatible uses will need to be removed and adequate community facilities provided.

The outer areas, planned and built in recent years in accordance with present standards, now contain the amenities for decent, comfortable living.

Growth must be organized. Livability must be protected by a comprehensive plan which utilizes the cooperation of citizens, city, and federal government through redevelopment, the process of removing substandard buildings, clearing areas and making the land available for whatever purpose might best be served. It calls for redevelopment of the land by private or public agencies in accordance with the master plan.

Rehabilitation of Substandard Housing and Blighted Neighborhoods—the process of preventing the causes of blight and removing the symptoms, in accordance with an urban renewal program. It requires:

That all deteriorated and substandard structures be remedied, repaired or altered to make them safe, sanitary, adequate and desirable places in which to live. Intensive use of all conservation techniques.

Removal of non-salvageable structures and incompatible uses. Provision for adequate public improvements and facilities.

Conservation of adequate housing—the process of preventing the causes of blight. It requires: Suitable land use and density patterns.

Strict enforcement of housing and related laws. Effective performance of municipal housekeeping functions. Adequate community facilities. Efficient traffic controls.

In Wilmington's situation, we have modern zoning by-law, subdivision regulations, building and health codes to form the nucleus of "the workable program" required.

A reasonable amount of open land is also available for developing into what could be an ideal suburban shopping center. By complying with the regulations of the Federal Government, this can be accomplished at one third of the total cost. The end result would be one hundred percent improvement to the town of Wilmington's taxable income from

urnabout in Nickel

After many years of nickel shortage for civilian applications, nickel supplies came into close hand Early Nickel Plating

lance with demand during the last part of 1957 in nearly all areas of the free world. In fact, in the large steel market, the United States, the supply exceeded the demand.

Nickel was used for plating as early as 1843. However, owing to the high price of the metal at that time and the difficulty of obtaining it in a sufficiently pure state, it was not until about 1870 that nickel-plating was established as an industry.

## Why Do Adventists Believe In Health

Seventh-day Adventists believe the medical work is the right hand of the Gospel, as in 1 Cor. 6:19 and 20. "What? Know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own? For ye are bought with a price: therefore glorify God in your body, and in your spirit which are God's," to prepare them for Christ's coming.

It is impossible to present our bodies as a living sacrifice to God when they are filled with corruption and disease by our own sinful indulgence. It is the duty of every Seventh-day Adventist to study how to have good health, learn how to put knowledge into practice, and teach others by precept and example.

On Medical Missionary Day, July 5, the eleven o'clock service will be dedicated to the medical work, and the offering that day is for Medical Missionary work.

A special medical program will be presented by S. D. Prescott, RN, Medical Secretary.

## Nickel Supplies At New High

Free world supplies of nickel in 1957 are estimated at 490,000,000 pounds, a new high record. This compares with the previous high of 450,000,000 pounds in 1956 and 425,000,000 pounds in 1955.

Nickel Cast Irons Polish Granite It takes more than elbow grease to polish granite. In fact, a special cast iron containing nickel is used for the wheels which cut and polish this rock, one of the hardest in nature.

The first conveyer sort out of the US Navy started July 1, 1900, when a fleet of 14 merchant ships sailed from Batavia, Dutch East Indies, around the Cape of Good Hope to the US under the guard of the frigate Essex.

Sandy Creek, New York, News: "With the scientific achievements of Russia challenging our educational systems, a sudden, new interest in our schools is apparent across the nation. We believe that our schools have been 'right in there' pitching 'all the time' but they had too little support from parents and townspeople. How many of us make it a point to talk with our Johnny's teacher to discover how we can encourage and help him at home? How many of us ever show up at school meetings?"

## Boating News

This news item of interest is through the courtesy of Center Harbor Marine Service.

**Devil's Lake, Oregon**—Hubert Entrop of Seattle has set new Class F competition and one-mile speed records with his homemade speedboat and six-cylinder Mercury Mark 70H motor, just two weeks after setting the world's speed record for outboard motorboats, 107.821 miles per hour.

Entrop, running in the American Power Boat Assn. regatta here June 21-23, sped to a 73.111 mph average on Sunday's far-from-smooth water to a new competition record in the F class. The next day he piloted the world's fastest outboard hydro through the one-mile speed traps at 103.596 mph, breaking the previous record by an amazing 28 mph.

On June 7 at Lake Washington in Seattle, Entrop had set a new world's speed mark for outboards, 107.821 mph, bringing the record back to the U. S. from Italy after 21 years. Milan's Massimo Di Priolo held the former record of 100.3 mph.

The new competition record of 73.111 broke Bud Wiget's 1957 mark of 65.568 mph. The one-mile record not only added over 28 mph to Burt Rose's 1954 mark of 75.402, but smashed the half-mile record of 78.336 mph of Bud Wiget as well by over 25 mph.

The Mercury Mark 70H used in the speed runs is the competition version of the six cylinder 60-horsepower outboard which last December 24 set a certified endurance run of 50,000 miles of continuous running in 68 days at an average speed of 30.3 mph.

Entrop worked with his partner-mechanic, Jack Leek in developing the unique hydroplane from an original design by Ted Jones, famed Gold Cup designer.

With his feat, Entrop becomes the first winner of the Jack Maypole Memorial Trophy, donated to the APBA by the Kiekhaefer Corporation, Mercury outboard manufacturers, to be awarded to the first outboard racer to achieve over 100 miles per hour in an outboard racing class recognized by the APBA.

urnabout in Nickel After many years of nickel shortage for civilian applications, nickel supplies came into close hand Early Nickel Plating

lance with demand during the last part of 1957 in nearly all areas of the free world. In fact, in the large steel market, the United States, the supply exceeded the demand.

Nickel was used for plating as early as 1843. However, owing to the high price of the metal at that time and the difficulty of obtaining it in a sufficiently pure state, it was not until about 1870 that nickel-plating was established as an industry.

## Why Do Adventists Believe In Health

Seventh-day Adventists believe the medical work is the right hand of the Gospel, as in 1 Cor. 6:19 and 20. "What? Know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own? For ye are bought with a price: therefore glorify God in your body, and in your spirit which are God's," to prepare them for Christ's coming.

It is impossible to present our bodies as a living sacrifice to God when they are filled with corruption and disease by our own sinful indulgence. It is the duty of every Seventh-day Adventist to study how to have good health, learn how to put knowledge into practice, and teach others by precept and example.

On Medical Missionary Day, July 5, the eleven o'clock service will be dedicated to the medical work, and the offering that day is for Medical Missionary work.

A special medical program will be presented by S. D. Prescott, RN, Medical Secretary.

### Last Call... Cookout

This is the last call for tickets for the Legion Cook-out to be held on Sunday, August 3.

Those on the committee to conduct are Chairman, Frank Tebeau, OL 8-2898; Joe Bradley, OL 8-3682; or Jim Fawcett, Jim Breen, Walter Collins and Jim Diehard.

Menu for the day will include lobster, crab, steamed clams, corn on the cob, hot dogs and coffee. This day was especially arranged so that the entire family could attend and have a good time. This is the first cook-out for the Legion, and they are planning that it be a huge success.

Entertainment will include races for the small fry, rolling-pin throwing contest for the women, horseshoes, and a softball game for men and women. Come one, come all and have fun... plenty of food for everyone.

Get that ticket now! Don't forget!

### Tewksbury Man Fined

James Willoughby of 4 Willow St., Tewksbury, pleaded guilty to charges of operating after suspension of his license in Woburn Court Tuesday and was fined \$50. A charge of operating at excessive speed was filed.

He was also fined \$25 for failing to stop on signal of a police officer. A two month sentence in the house of correction was suspended for six months.

### Bob Barrett Special Officer

Robert Barrett, one of the supervising principals in the elementary grades here, was appointed special police officer Tuesday morning.

Mr. Barrett will be found on duty at Silver Lake Beach for the remainder of the season.

### Planning and Appeal Boards Meet

Members of the planning and appeal boards met Tuesday evening to discuss future rulings on requests for variances on signs.

Both boards agreed that unless variances were slight, little consideration should be given such requests, on the theory that the law was made for all.

Present signs in town currently being scrutinized.

### New Bratt Baby

Mr. and Mrs. Richard Bratt, of Main St., N. Woburn are receiving congratulations on the birth of a son, Richard Kevin, on Wednesday, July 16. Born at Choate Memorial Hospital, Woburn, the boy weighed in at 8 lbs., 6 oz.

Mother is the former Mary June McCormack of Grov. Ave., Wilmington; maternal grandparents are Mr. and Mrs. Leo McCormack of Wilmington; the paternal grandparents, both deceased, were the William Bratts of Somerville.

### Visit Bermuda

Miss Dorsey Kelley, daughter of Police Officer and Mrs. Arthur Kelley, of Shawheen Ave., and Miss Becky Emery, daughter of Mr. and Mrs. Talbot Emery of Lake St., left on Saturday morning for a trip to Bermuda.

The girls will vacation in Bermuda for two weeks.

DONALD COOKE IN GERMANY  
US Forces, Germany (AHTNC)  
— Pfc Donald T. Cooke, son of Mrs. Mary McInnis, 1 Hobson Rd., Wilmington, recently participated in an Army training test with the 43rd Antiaircraft Artillery Battalion in Germany.

Cooke, a generator operator in the battalion's Battery C, entered the Army in 1948 and arrived in Europe last January. His wife, Eleanor, is with him in Germany. Cooke, 27, is the son of Claude T. Cooke, 23 Sunset Rd., Winchester.

### St. Dorothy's Announcements

Friday of this week is the first

Forty Hour Devotion will also begin. Masses will be at 6, 7 and 8:30 a.m. The 8:30 will be a High Mass in honor of the Blessed Sacrament heralding the opening of the Forty Hour Devotion.

Confessions will be heard the previous Thursday evening at 7:30 at St. Mary's.

On Saturday morning, there will be only one Mass at 8:30. This will also be a High Mass.

The Forty Hours will close with High Mass on Sunday at 9:15 a.m.

On Friday and Saturday evenings there will be Benediction of the Most Blessed Sacrament after which the Blessed Sacrament will be put in repose.

Friday evening there will also be a holy hour.

The citizens of the parish, men, women and children are urged to take part in these devotions by assigning themselves to half an hour or an hour adoration before the Blessed Sacrament on Friday and Saturday.

There will be a special choir rehearsal on Wednesday morning at 10.

The altar boy schedule for the Forty Hour Devotion and for the month of August is posted at the church and at St. Dorothy's Hall. These schedules must be strictly complied with.

Next Sunday is Communion Day for the Ladies Sodality and all the ladies of the parish.

St. Dorothy's Girl's Softball Team will be challenged by their rivals who will play against them on Saturday evening at 6 at the Wilmington Common.

The priests of the parish are grateful to one and all who helped in any way to make the parish festival the success which it was. They are very proud of the manner in which it was conducted and with the spirit which all have shown. The sum of the proceeds will be announced at a later date.

They are also grateful to the blitz committee for the proceeds of last Tuesday evening party. The committee will conduct another party in this series at St. Dorothy's Hall next Tuesday evening.

On Friday evening, Mrs. Elsie Gath and her committee will conduct the whist party at St. Dorothy's Hall.

Student altar boys will meet at St. Mary's for instructions on Monday evening at 7. The Novena in honor of Our Lady of the Miraculous Medal is held each Monday evening at 7:45.

### Baptist News

Pastor Eliot Castillo will preach at both the morning and evening services of the First Baptist Church this coming Sunday and will conduct a communion service in the morning. Worshipers are reminded that the morning services during the summer begin at 9:30. The evening service is at 7:30 as usual.

The annual church picnic which has been cancelled because of rain for the past two Saturdays is being scheduled for this Saturday, August 2.

It will be held, weather permitting at Wyman's Beach, Westford, Mass. and cars will leave the church at 9 sharp.

This Friday, August 1, there will be a young people's Bible Club at Joyce Arbo's home, Nickerson Ave., with Jack Moore bringing the Bible study.

Next Monday evening, the Senior High B. Y. F. is planning a beach party at Lynn Beach and will meet at the parsonage at 6:30. B.Y.F. members are urged to bring a friend, and if rides are needed, call Joyce Arbo, 8-2558 or Midge Reardon, 8-2767.

Other regular meetings during the summer include the Tuesday evening prayer service at 8 in the chapel and the "Hour of Power" on Thursdays at 7:30 p.m.

Morning worship at the Congregational Church on Sunday, Aug. 3, at 9:30 a.m. The Rev. Stanley Cummings will be back from vacation and will conduct the service, and the address will be given by a representative of the Gideon Bible Society. At the close of the service an opportunity will be given for a free will offering for the Society.

### Charles L. Norton's Photograph On Exhibit

Charles L. Norton, Wilmington, has been honored by an elite group of his fellow professional photographers.

The Professional Photographers of America, Inc., represented by several of its most prominent members, selected one of his photographs for exhibit at the 67th annual convention and trade show of the PPA, held July 20-25 at the Conrad Hilton hotel, Chicago.

The choice was made by a Jury of Selection comprising holders of the Master of Photography degree, the highest honor PPA confers on qualified members. Photos accepted for display, win their makers merit points towards the Master's degree, for which 25 merits are required. In addition, outstanding prints in the exhibit are chosen for the PPA's Loan Collection which tours the country during the year.

Record numbers were submitted and selected for exhibition at this year's convention. From some 5,000 prints sent in by photographers as their best work in 1957, more than 1,000 were accepted for display. About 160 will go into the Loan Collection for exhibition across the country.

More than 5,000 members of the PPA are expected to attend the convention, and some 10,000 of the general public are estimated to see the print exhibit which is open to the public.

The local photographer's accepted work is titled: "Cliff at Gaspe."

### Girl Scout Day Camp Success

This was the sixth season for day camp for the girls scouts of Wilmington. They held their camp the first and third weeks of July covering Tuesdays, Wednesdays and Thursdays only, at Camp Forty Acres.

Mrs. E. B. Rice, Jr., director, and Mrs. John McCabe, camp chairman and business manager, Mrs. Barbara Dowling, nurse; All councilors were trained by Mrs. Rice.

Councilors included: Mrs. Alfred Quindland, Mrs. Charles McCann, Mrs. Earl Camber, Mrs. James Montague, Mrs. Robert Gundersen, Mrs. George Roberts, Mrs. William Widger, Mrs. Ralph Barden, Mrs. Winston Fairfield, Mrs. Lawrence Dowling, Mrs. George Webster, and her daughter Alice assisting in the Jack & Jill group. Mrs. John Tobie and son assisted with the boys in the Jack & Jill group.

Mrs. Shirley Lyons was in charge of arts and crafts. They had archery classes, and a nature study teacher from the National Audubon Society.

We wish to remind you that any registered brownie or girl scout is eligible to attend these camp days. Keep this in mind for next year.

The campers, on July 9th visited Lynch Park, Beverly for a glorious picnic. Also, on July 16th the senior group had an overnight stay at Camp Runels, N. H. This was especially fine, as the girls had no shelter and had to make camp from the very rugged wilds of New Hampshire.

The chairman, councilors, and directors would like to remind the public of the need for volunteers for the coming year of girl scouts. For compensation there is a small salary given, plus the fact that it is a great joy working with children of this age.

There was a total of 67 girls attending camp this year.

### Planning Board Meets With Survey Representative

The Planning Board met Monday evening with James Shurtliff, representative in the Economic Development Association, planning consultants.

The group met to discuss procedures and groundwork for a program of study for a capitol, budget program, school, playground and recreational needs.

Drive it on America's newest highways!

New-type, sound-conditioned concrete will be fun to drive for 50 years

Not a "hump" to be heard on this continuous-laid concrete. It's almost like riding above the pavement. Instead of an it. Sound-conditioned concrete has no joints... only tiny, saved cushion spaces. You skim over them and don't know it! "Air-entrapment" prevents surface roughening, keeps concrete smooth. Laid flat, this concrete stays flat and will last 50 years and more.

Only concrete can be engineered to match expected traffic loads. It's the preferred pavement for the new Interstate System and all major highways.

Compare cement concrete mileages constructed in the nine most populous states since 1948: 1) New York - 2,702; 2) California - 938; 3) Pennsylvania - 1,901; 4) Illinois - 1,699; 5) Ohio - 1,956; 6) Texas - 1,788; 7) Michigan - 1,412; 8) New Jersey - 337; 9) Massachusetts - 25. It costs up to 60% less to maintain concrete roads than asphalt. Obviously Massachusetts has not kept pace with other large states in construction of durable, low-annual-cost pavements.

PORTLAND CEMENT ASSOCIATION 20 Providence Street, Boston 16, Massachusetts

A national organization to improve and extend the uses of concrete

### Here And There

The Sea Explorer's had a regular meeting on Thursday, July 24. The boys in this organization are quite anxious to launch their boat, but cannot do this without the help of the people of Wilmington.

They are in need of 3 six volt batteries, to get the engines humming. Ralph Goss, Eames Street was kind enough to donate a battery, but three more are needed.

Get these boys in the water... donations are needed, don't let this fine program go dead on them! Call Warren Smith at OL 8-2813 or Mr. Henry Heise at OL 8-4674. Make that call!

The Silver Lake Betterment will hold its annual election of officers on August 4. Plans for the coming events of the year will be discussed at this meeting.

It is hoped that a large number of members will be in attendance, as this is the meeting that they plan for their Thanksgiving and Xmas whist parties.

Mr. and Mrs. George Gray of Clark St., and family are vacationing at North Truro. They are expected to return home in the near future.

Legion Post #136; Chairman, Frank Tebeau of Cook Avenue would like to remind all members who have tickets or returns, that they must get in touch with him on or before Thursday, July 31. Call OL 8-2890.

Glass Broken In Steven's Flower Shop

On July 23, at approximately 3:30 a.m., Sgt. Shepherd and Officer Harvey, while on a routine inspection, discovered that a plate glass window had been broken in the front door of Steven's Flower Shop.

Closer investigation proved that nothing had been taken and that no entry had been made into the shop.

Altman's Store Damaged

At 5:15 a.m. on July 23, an unusual accident occurred in a Wilmington Center involving two trucks and Altman's Store.

Altman's Store, while parked on the easterly side of Main St., and minding its own business was struck and damaged without provocation when a truck being operated by Lorei Tessicini of Burlington Ave. went out of control.

After striking the store and knocking over a parking sign in front of it, the truck continued to the other side of the street and collided with a second truck parked there. The second truck was owned by Leon Hurd. Mrs. Hurd, a passenger in the truck claimed no injuries.

Tessicini complained of slight head injuries. Both vehicles were damaged.

Return From Wellsfleet

Mr. and Mrs. John Balch of Marion St., returned home recently from a most enjoyable three weeks vacation at Wellsfleet where they visited with Mrs. Balch's parents, Mr. and Mrs. Earl Godwin.

Mr. and Mrs. Balch were accompanied on their trip by their children, Carol, Jean and David.

Vacationing At Girl Scout Camp

Miss Jean Balch of Marion St., left home on Sunday for a two weeks stay at Camp Reynolds in Pelham, N. H. This is Jean's first year at girl scout camp and friends and relatives are wishing her a wonderful two weeks.

### Larceny From Automobile Trunk

Sam Grant of Shawheen Ave., reported to police on July 22, that sometime during the night before items valued at nearly \$60 were stolen from the trunk of his car while it was parked in his driveway.

The trunk had been forced open and a tubeless tire and wheel worth \$12 had been taken, along with a Boston Bag containing tools valued at over \$40 and a flashlight having an estimated value of \$2.

Mr. Grant also complained that gas had been siphoned out of his vehicle.

Sgt. Imbimbo is still investigating the theft.
